

MOUNT LAUREL SCHOOLS

2023-2024 ASSESSMENT RESULTS

Mridula Bajaj
Assistant Superintendent for
Curriculum, Instruction and Assessment

October 15, 2024

CYCLE OF TEACHING AND LEARNING

Assessments are just one part of the Cycle of Teaching and Learning

Key Metrics:
Formative
Summative
Benchmark
Standardized

NJSLA Performance Levels for ELA and Math

- **Level 1:** Not yet meeting grade-level expectations
- **Level 2:** Partially meeting grade-level expectations
- **Level 3:** Approaching grade-level expectations
- **Level 4:** Meeting grade-level expectations
- **Level 5:** Exceeding grade-level expectations

Note: Proficiency requires scores at level 4 or 5 (meeting or exceeding grade level expectations)

LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4	LEVEL 5
Did Not Meet Expectations	Partially Met Expectations	Approached Expectations	Met Expectations	Exceeded Expectations

NJSLA Science

Proficiency Levels by Grade and Cut Score				
GRADE	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4
5	100-149	150-199	200-242	243-300
8	100-149	150-199	200-230	231-300

Note: Proficiency requires scores at level 3 or 4

English Language Arts/Literacy Grade 5 Cohort Comparison for the District Percentage of Students That Met or Exceeded Expectations

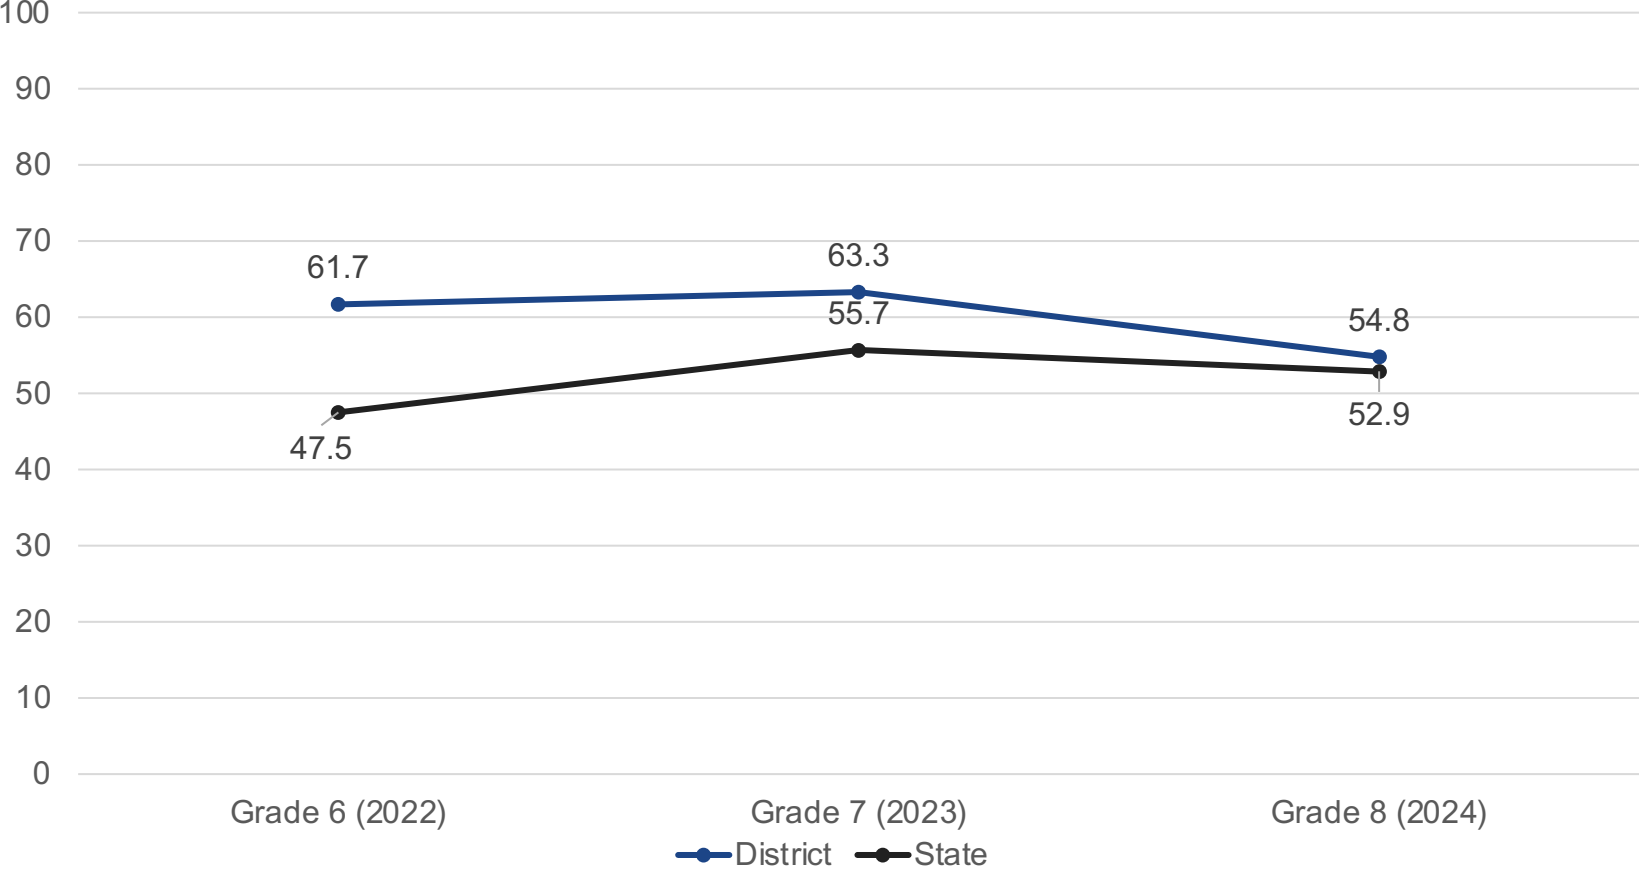

English Language Arts/Literacy Grade 6 Cohort Comparison for the District Percentage of Students That Met or Exceeded Expectations

English Language Arts/Literacy Grade 7 Cohort Comparison for the District Percentage of Students That Met or Exceeded Expectations

English Language Arts/Literacy Grade 8 Cohort Comparison for the District Percentage of Students That Met or Exceeded Expectations

Key Takeaways - English Language Arts

- Overall, the number of students in Mount Laurel who met or exceeded grade-level expectations is greater than the number of students in New Jersey who met or exceeded grade-level expectations in grades 3-8.
- There are fewer students in Mount Laurel not meeting or partially meeting expectations (scoring within the level 1-2 range) than the number of students in New Jersey performing below benchmark in grades 3-8.
- Certain populations of students are underperforming when compared to the district and state, including students who are Hispanic, African American, economically disadvantaged, English Language Learners, and students who receive special education services.

Target Areas and Next Steps English Language Arts

Target Areas:

- Transition Grades 3, 5, and 7, and 8th Grade
- Students who are approaching expectations (Level 3)
- Specific populations, including students who are Hispanic, African American, economically disadvantaged, English Language Learners, and students receiving special education services.

Next Steps:

- Continued partnership with Teachers College Advancing Literacy
- Vertical articulation and alignment of instructional practices and expectations, especially for transition grades and 8th grade
- District Data Team Training and related ongoing professional development
- District Equity Training and related ongoing professional development
- Collaborative work within our District Literacy Committee

Cohort Analysis: Mathematics

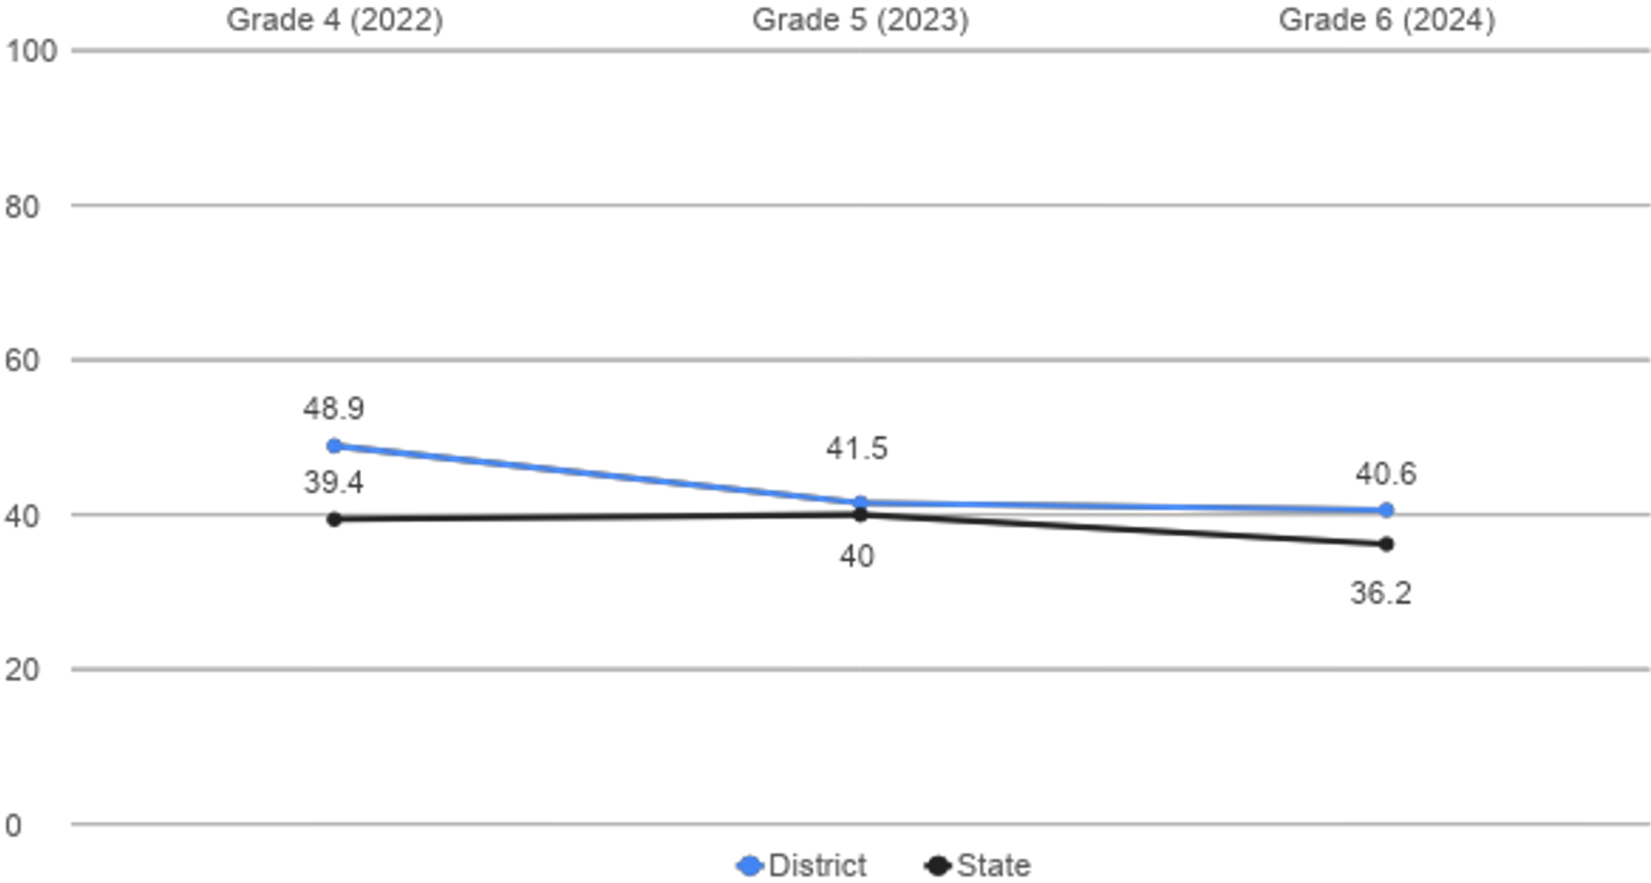

Mathematics Grade 4 Cohort Comparison for the District Percentage of Students That Met or Exceeded Expectations

Mathematics Grade 5 Cohort Comparison for the District Percentage of Students That Met or Exceeded Expectations

Mathematics Grade 6 Cohort Comparison for the District Percentage of Students That Met or Exceeded Expectations

Key Takeaways – Mathematics

- We continue to score higher than the state in the number of students scoring in the met or exceeded expectations levels.
- In Grades 5–8 there are less students scoring at Level 1 than last year.
- Similar to last year, however slightly better, our underrepresented populations, such as students who are Hispanic, African American, economically disadvantaged, English Language Learners, and those who receive special education services are underperforming compared to the state and district averages.
- Our 7th and 8th graders in Algebra 1 and Geometry continue to score better than the state, including students in 9th and 10th grade taking the same assessments. Over 90% of these students are scoring a Level 4 or 5.

Target Areas and Next Steps – Mathematics

- Target Areas:
 - Growth in all grade level
 - Supporting our underrepresented students
 - Equity and Inclusion
 - Ongoing support and targeted professional development
 - New Program Roll Out in Grade K-2
- Next Steps:
 - Implementation of the New Math Program
 - Year 1: Grades K-2
 - Year 2: Grades 3-5
 - Year 3: Grades 6-8
 - Ongoing professional development, mentoring, and coaching to support the new program
 - Continue Curriculum Conversations and Modeling in all K-8
 - Continued Support from ESU (Educational Services Unit) –
 - Extra support in Math and ELA for our Title 1 Schools to give everyone what they need
 - Work with teachers to analyze data to inform targeted instruction

NJSLA SCIENCE

Jared Caltabiano
Curriculum Supervisor

Comparison of Mount Laurel Schools to NJ State Science Total Student Proficiency Percentages for Spring 2024

	Level 1		Level 2		Level 3		Level 4		Level 3 & 4	
Grade	State	District	State	District	State	District	State	District	State	District
5	35.3	24	37.1	44.9	21.1	25.9	6.4	5.2	27.6	31.1
8	36.1	20.1	45.2	50.9	13.9	21.9	4.9	7	18.8	29

Science Grades 5 & 8 Mount Laurel Compared to New Jersey Proficiency of Total Student Population

Grade 5 Science District Demographics - Race Proficiency of Total Student Population

Grade 5 Science District Demographics - Program Proficiency of Total Student Population

Grade 8 Science District Demographics - Race Proficiency of Total Student Population

Grade 8 Science District Demographics - Program Proficiency of Total Student Population

3 Year Comparison: Science

3 Year Comparison of Mount Laurel Schools Students Tested Spring 2022, 2023 and 2024 NJSLA Science Percentage of Students Who Met or Exceeded Expectations

Grade	2022	2023	2024
5	42.2	33.2	31.1
8	18.6	26.6	29

Key Takeaways – Science

- The district continues to perform above state avg. in achieving proficiency in both grade 5 and 8.
- Sustained upward trend in grade 8 proficiency. 10% increase since 2022.
- Maintained proficiency levels in grade 5, while transitioning students from below to near proficiency.
- Significant portion of students in grade 5 (45%) and 8 (51%) that are approaching proficiency.
- Groups of students are underperforming compared to peers i.e. Hispanic and African American, Economically disadvantaged, Special Ed, and ELL students.

Target Areas and Next Steps - Science

Target Areas

- Instructional materials and pedagogy in the 3-5 grade band
- Support underserved students in engaging in science and achieving proficiency.

Next Steps

- Targeted PD to improve instruction and assessment to better support ALL students in meeting the performance expectations of NGSS.
- Ongoing review and reflection on instructional practices and materials in the 5 - 8 curriculum.
- Programmatic review of grade 3 and 4 curricula to identify and implement high quality science instructional materials
- Participation in the Burlington County Science Curriculum Consortium.

ACCESS

Matt Saul
Curriculum Supervisor

2023-2024 ELL Program

104

Current number of students identified as ELL

34

Number of exited students - 2023-24

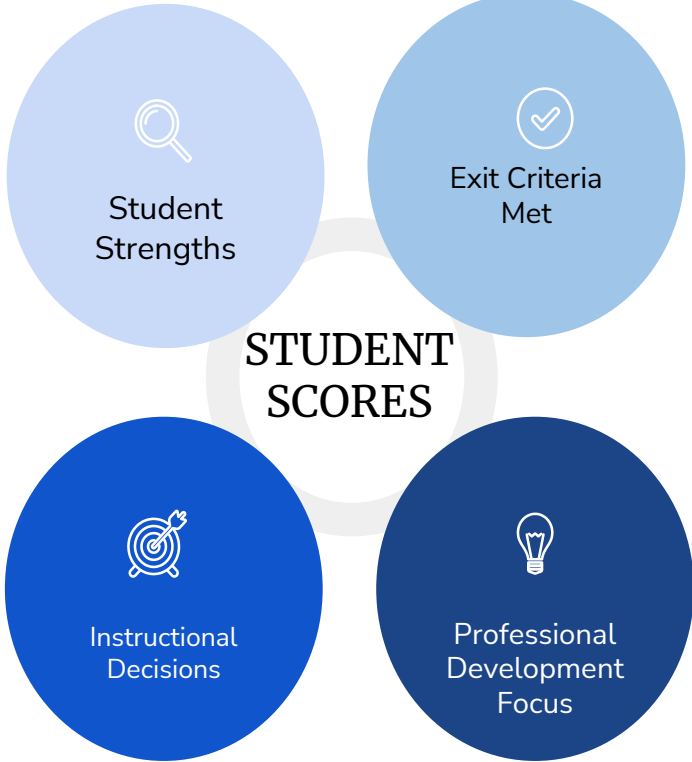

12

Students who moved out of the district since spring 2023

23

Students who moved into the district for 2023-24

ACCESS for ELLs

Language Domain	
Listening	
Speaking	
Reading	
Writing	

6 Proficiency Levels	
1 - Entering	Knows and uses minimal social language and minimal academic language with visual and graphic support
2 - Emerging	Knows and uses some social English and general academic language with visual and graphic support
3 - Developing	Knows and uses social English and some specific academic language with visual and graphic support
4 - Expanding	Knows and uses social language and some technical academic language
5 - Bridging	Knows and uses social and academic language working with grade level material
6 - Reaching	Knows and uses social and academic language at the highest level measured by this test

ACCESS Test Results

2023-2024	
Not Yet Proficient	Proficient
(Score of Lower Than 4.5)	(Score of 4.5 or Higher)
78% (80)	22% (22)

2022-2023	
Not Yet Proficient	Proficient
(Score of Lower Than 4.5)	(Score of 4.5 or Higher)
80.6% (81)	19.4% (19)

Target Areas and Next Steps

- 2 areas of focus for 2023-24 - Speaking & Writing
- Continue working with professional development arounds the Units of Study
- Improve co-teaching supports and professional development
- Build supports for families through family events and translation/interpretation services.

DLM ASSESSMENT

Dynamic Learning Maps

Dr. Diane Willard
Director of Special Services

The DLM was developed in order to assist educators in the identification of specific needs for students with significant developmental disabilities. It is aligned with essential educational elements and provides baseline data to guide instruction.

The plan is administered individually by teachers via testlet modules over a period of time during the Spring State assessment window.

Achievement Levels

The following are designated levels of achievement:

Emerging – The student demonstrates an emerging understanding of and ability to apply content knowledge and skills represented by Essential Elements.

Approaching Target – The student's understanding of and ability to apply targeted content knowledge and skills represented by Essential Elements is at the approaching targeted level of achievement.

At Target – The student's understanding of and ability to apply content knowledge and skills represented by Essential Elements is at the targeted level.

Advanced – The student demonstrates advanced understanding of and ability to apply targeted content knowledge and skills represented by Essential Elements.

DLM Test Results

Grades 3-8

A total of 45 students were eligible for this assessment; 41 were assessed, 4 students were not assessed due to specific individual reasons.

	<u>Level 1</u> Emerging	<u>Level 2</u> Approaching	<u>Level 3</u> At Target	<u>Level 4</u> Advanced
<u>English</u> <u>Language</u> <u>Arts</u>	16	8	14	4
<u>Mathematics</u>	17	6	6	11
<u>Science</u> <u>(5th & 8th</u> <u>Grades Only)</u>	6	6	7	0

Key Takeaways - DLM

- The majority of our students with significant developmental delays are at an “Emerging Level” are in “Out of District Programs: or at a 3rd/4th grade level.
- It was noted that as students moved into the 5th to 8th grade levels, improvement in their skills was noted and they have reached the “At Target” or “Advanced” Levels on the Essential Elements assessed.
- Further analysis of the data indicated that ELA and Math were found to be impacted equally for our students with significant developmental delays.
- It was noted that the district has more students functioning at the Target or Advanced levels this year than the previous year in both ELA and Math. This is a positive trend.

Target Areas and Next Steps DLM

Teachers are able to analyze the data obtained from the DLM results in order to plan for future instruction, IEP objectives and to monitor the progress toward the achievement of the Essential Elements for each student individually. This data is important when comparing the growth of our students to NJ State Standards.

***Every statistic represents a
life, a learner, and limitless
potential.***
