

# JOHNSTOWN-MONROE SCHOOL DISTRICT

## A Plan For The Future

Johnstown-Monroe has prepared for future growth by focusing on forging development compensation agreements with our municipal and township partners.

The Board of Education is committed to maintaining a single high school, while shaping a plan that can grow District enrollment to 4,600 students.

In recent years, the District has transformed the way it uses data, allowing better identification of student needs and the ability to respond with even more meaningful support.

Area partnerships with schools and local businesses have resulted in more than \$500,000 in donations to enhance the District's K-12 STEAM education, creating one-of-a-kind opportunities for our students.

**“A team of 185 dedicated professionals, committed to quality education.”**

Johnstown-Monroe is a growing district, located at the heart of “The Silicon Heartland.” To meet growing employment and projected enrollment demands, our District recently added electrical trades, multi-skilled technician, and medical sciences pathways.

We also debuted a new addition to our high school for the 2025-26 school year and are currently expanding our athletic facilities’ offerings.

Approximately 93 percent of Johnstown High School students participate in athletics and/or a school-sponsored activity.
