

SUPERINTENDENT'S TIP OF THE HAT

—March 6, 2025—

Saluting Career & Technical Education

February was “Career & Technical Education Month.” On Monday, Feb. 24, 2025, we visited C-TEC to observe our Johnstown High School juniors and seniors at study in their various labs, including cosmetology, welding, firefighting & emergency medical services, automotive technology, and veterinary science, among many other career pathways. Please enjoy these [video highlights](#). Also, we will spotlight our trades students at the March 10 Board of Education meeting.

February was officially designated a national “Career and Technical Education Month.” In addition to the video linked to above, throughout March we will be further celebrating our students studying at C-TEC, as well as those learning within our C-TEC satellite labs at Johnstown High School (JHS).

On March 10, we also look forward to our Board of Education receiving a presentation regarding our growing JHS Electrical and Skilled Trades offerings. The meeting will also include a presentation of a Memorandum of Understanding with C-TEC to establish a Grades 9-12 “Health Sciences Pathway” within JHS.

JHS Boys Season (17-7)

Career & Technical Education

In addition to visiting C-TEC recently in order to gather material to spotlight our students there throughout March, we also recently hosted a number of special visitors to JHS to see our multi-skilled, electrical trades, and robotics offerings. These special guests have included representatives from Meta/Facebook, as well as local potential future employers with whom we are exploring potential partnerships.

IN THE NEWS

We were visited by WBNS 10TV's Angela An on Feb. 20, 2025, to discuss the recent purchase of the city building. The resulting report ran in several different forms across several different days. On Tuesday morning, Feb. 25, a subsequent phone interview was conducted with Angela for a follow-up report. Video:

JIS Students Given Social Media, Phone Safety Tips

Johnstown Intermediate School students received internet, social media, and phone safety tips from the Licking County Sheriff's Department on Feb. 26, 2025. Some of the important safety concepts shared with students are spotlighted in [this video](#).
