Freedom Area School District Families (1:20PM),

Another bomb threat was emailed to the Freedom Area High School principal today (Corrected day on original posting from Monday to Tuesday), September 8, 2026. High school students are being evacuated to the stadium at this time. I ask that all families refrain from coming to the Freedom campus at this time as law enforcement officers are responding. At this point, we are holding elementary and middle school students in place in their schools. More information will be forthcoming. Again, the public is asked to refrain from driving onto campus at this time.

The district expects to have its regular afternoon bus dismissal. All regular bus routes will operate as normally scheduled this afternoon. Thank you.
