Dear EPCS Families,

Welcome to Third Grade!

I am so excited to begin a school year filled with fun, discovery, and exciting learning opportunities. Your children will grow so much this year—academically, socially, and as members of our school community.

Get ready for a fantastic year ahead!

Third Grade Community of Learners

The third-grade teachers are excited to welcome your children to a year filled with growth, learning, and community-building!

This year, we are not only focused on creating strong classroom communities, but we're also committed to fostering a sense of unity across the entire third-grade level. We believe that by working together, our students will benefit from a collaborative and supportive environment.

We look forward to a wonderful year of learning and teamwork!

Warmly,
The Third Grade Team

Ms. Vargas: Welcome, 3rd Graders! This is my second year teaching at EPCS, and I'm excited to continue doing what I love. I've been teaching for six years and am especially looking forward to connecting with the new 3rd grade students. I'm excited to be this year's 3rd grade teacher—we'll be exploring so much in Language arts (my favorite), in writing, learning multiplication and division, geometry, and so much more! I live nearby in Bergen County and hold a Bachelor's Degree in Early Childhood Education and in Spanish. I am also a certified Orton-Gillingham teacher who loves to read. I'm passionate about creating a positive and engaging classroom environment where all students can thrive.
