Dear EPCS Families,

Welcome to Third Grade!

I am so excited to begin a school year filled with fun, discovery, and exciting learning opportunities. Your children will grow so much this year—academically, socially, and as members of our school community.

Get ready for a fantastic year ahead!

Third Grade Community of Learners

The third-grade teachers are excited to welcome your children to a year filled with growth, learning, and community-building!

This year, we are not only focused on creating strong classroom communities, but we're also committed to fostering a sense of unity across the entire third-grade level. We believe that by working together, our students will benefit from a collaborative and supportive environment.

We look forward to a wonderful year of learning and teamwork!

Warmly,
The Third Grade Team

Ms. DeNardo: My name is Judie Denardo, and I am so excited to begin my 4th year teaching 3rd grade at EPCS. I am a certified elementary teacher in New Jersey with a degree in Elementary Education and a minor in Humanities. I have a long-standing career in education and have had the opportunity to teach a variety of grade levels.

I have dedicated my career to teaching and supporting young learners, and I truly enjoy helping children grow in confidence, curiosity, and independence. My goal is to create a positive, warm, and engaging classroom environment where every student feels welcomed, valued, and supported, and where they are encouraged to try their best and grow with confidence each day. I look forward to building strong connections with my students and their families and making this a wonderful year of learning and discovery.
