

NORWAYNE SCHOOL DISTRICT PERMANENT IMPROVEMENT LEVY

Norwayne voters will be asked to renew the district's Permanent Improvement Levy for another five years at the May 2025 Primary Election. It was first voted on in 1978 and has been renewed several times during the past 46 years with the cost of the levy to taxpayers remaining the same. This P.I. Levy is a **RENEWAL** and **will not** raise anyone's taxes.

This levy currently generates \$287,800 annually for the purpose of improving and maintaining the district's buildings and facilities. Monies from this levy can only be budgeted and expended on buildings and facilities and **cannot be spent for any other purpose**. Keeping the district's school buildings, facilities and grounds in a good state of repair is a major undertaking and as with any property there are always needed and sometimes unexpected repairs. Examples of some of the major improvement projects during the past five years include, but are not limited to, the following:

2024-25

- Middle School Chiller Maintenance
- Middle School Roof Leak Repair
- Rooftop AC Unit Repairs
- Elementary Heat Pump Replacements
